

Glass Washing Machines

for Advanced Requirements

- High speed
- Energy Efficient
- High washing quality
- Long durability

Eco-CD-3000 WM

Glass washing-technology

- Washing Machines for all sorts of glasses: low-e glass, solar glass, coated glass
- Main structure of machines is aluminum and stainless steel
- Structure which ensures the machines long service life
- Machines are high efficient and energy-saving
- Saves customer processing costs

Eco-G6-1700 WM

**Machines integrated to
your manufacturing needs!**
